PHYS 410 Fall 2000 Computational Physics Initial Survey

Name:

Name of account (or "none") on Physics & Astronomy Sun server, `physics.ubc.ca`:

Name of account (or "none") on Relativity Group SGI machines:

Other machines/systems which you can access, including home systems:
(For home systems indicate whether you have Internet access.)

Previous and concurrent physics courses:

Previous and concurrent math courses:

Previous and concurrent computer science courses:

Programming language you know best:

Text editors and/or word processors you are comfortable with:

Level of proficiency (use 0-5 for "none" through "fluent") in:

Unix:

C:

C++:

Fortran 77/Fortran 90:

Java:

Maple:

Mathematica:

Netscape/Other Web Browser (specify):
